

BLOOD DONATION ACTION

"Giving your own blood - voluntarily and selflessly, is a gesture of high moral and civic value. It is a gift of life... May the blood donors, to whom everyone's gratitude is due, be stronger in all parts of the world."

Pope John Paul II

On November 15, 2022, the Blood Donation Campaign took place in our school. Of the many people who responded to our appeal, 25 donations were made. Together we collected 11.25 liters of blood. We would like to thank the students who volunteered so maturely, responsibly and willingly to donate blood that saves the health and lives of others. In addition, two students declared their readiness to donate bone marrow and registered in the National Register of Bone Marrow Donors.

Thank you very much for participating in the school blood donation campaign, for this exceptionally beautiful humanitarian gift, proof of high social commitment and a sense of strong interpersonal bond.
