

“EARTH DAY – Eco Fashion Show”

On April 19, 2023 on the occasion of Earth Day, in I LO in Rawicz, The Eco Fashion Show was organised . The students of our high school created outfits from different types of recycleable materials. Then they were presented in front of the jury and judged.

The Eco Fashion Show’s aim is to make young people aware how important it is to care about our planet and to indicate ways we can give a second life to apparent waste. Recycling or upcycling - these are the passwords !;)

The jury consisted of first forms’ teachers. Their verdict was hard to make. Finally, the jury decided that all participants deserve the prize. Everyone is the winner when it comes to eco awareness.

Congratulations!!!

We hope that in the future this type of events will attract more people. We need to take our planet, not just on Earth Day.
